DETAILS

The kick start to Art's racing success was his driving of *Miss Supertest II* to a world record and still standing Canadian water speed record on November 1, 1957 at Picton, Ontario. The formation of the Canadiana Racing Team that dominated limited class racing for a number of years was another of Art's achievements. This book not only highlights his racing career and accomplishments, (which Art would probably say was just all in a day's work), but also includes information on his family history and relationship to other hall of fame speed racers, his service in the Royal Canadian Airforce as part of a B-24 Liberator Bomber crew that had several successful missions against the enemy, and a look at Art as just a "regular" community minded guy. More than 300 photos, many from Art's personal files, compliments of Chuck Boothby, plus information and photos from a multitude of others, complement his story. A great read and well researched record for anyone who is interested in hydroplane racing and especially for those who knew Art.

It can be purchased by mail order from the author, Doug Cunningham, or picked up directly from Joanne Cunningham or Lake of Bays Garden Centre if you live in the Muskoka area of Ontario. If you are ordering for shipment, please read the following information on shipping and complete the order form.
